[Tiered Lessons: One Way to Differentiate Mathematics ...](#)

Tomlinson (1999) described tiered lessons as the meat and potatoes of differentiated instruction. A tiered lesson is a differentiation strategy that addresses a particular standard, key concept, and generalization, but allows several pathways for students to arrive at an understanding of these components based on their interests, readiness, or learning profiles. A lesson tiered by

Getting Started using FastLink 3.0 | Yodlee Developer Portal

Documentation: FastLink 3.0 Detailed Integration Guide; Introduction FastLink is an application that lets consumers add accounts by searching for the website of a financial institution and entering the login credentials for the account(s) held there.

Evolutionary equilibrium strategies - ScienceDirect

This paper re-examines the concept of evolutionary stability proposed by Maynard Smith. For any finite population it is shown that a strategy which is stable in the sense of Maynard Smith may have a lower fitness than a mutant strategy regardless of the proportion of contestants using the latter.

0A.

The integration algorithm used in the program is a sixth order predictor - corrector scheme which is initiated by a classical fourth order Runge - Kutta method.
