Definition of Human Biology | Sciencing

Biology is a natural science that studies the physiology, behavior and other qualities of life and living organisms, while human biology focuses on humans. The study of human biology covers a wide range of subjects and may include genetics, evolution, physiology, anatomy, epidemiology, anthropology, ecology and nutrition. A comprehensive human biology definition must cover all of these aspects.

Human Biology, Book by Sylvia S. Mader (Paperback ...

Instructors consistently ask for a human biology textbook that helps students develop an understanding of the main themes of biology while placing the material in the context of the human body.

Human Biology | Faculty of Arts & Science Calendar
The Human Biology Program is an undergraduate collaborative program between the Faculty of Arts and Science and the Faculty of Medicine. Our programs examine the biology of our species through interdisciplinary lenses by integrating topics from the biological and medical sciences, social sciences, and the humanities. The overall structure of the collaborative program is designed to expose students to the transdisciplinary field of human biology with opportunities to specialize in selected
