social identities in that they define in part the kinds of communicative activities and the particular linguistic resources for realising them to which we have access.

Home - Economic and Social Research Council

15 million has been awarded to 16 teams of researchers to allow academics in Europe and Japan to collaborate on a range of exciting projects that will push the boundaries of our understanding of individual and social behaviour with a view to influencing policymaking and practice.

The Impact of Social Media on Identity Construction by ...

Social media has caused people to move away from their real self-identities due to negative messages displayed by the media and other social forces. Dobson (2002) suggests that self-identity is a global understanding someone has of themselves (and) is composed of relatively permanent self-assessments.
