### **The Shallows | Nicholas Carr**

The subtitle of Nicholas Carr's *The Shallows: What the Internet is Doing to Our Brains* leads one to expect a polemic in the tradition of those published in the 1950s about how rock n roll was corrupting the nation's youth. But this is no such book. It is a patient and rewarding popularisation of some of the research being done at the frontiers of brain science. Mild-mannered.

### **The Shallows: What the Internet Is Doing to Our Brains by ...**

The Shallows by Nicholas Carr is an excellent read. It really opened my eyes to many different things that I had never thought of before. Carr has the interesting perspective of life before the internet and life now. I, unfortunately, do not have both perspectives. However, I have been able to relate by seeing the evolution the internet has made over the past 10 years of my life since I have
