Using Statistics to Make Educational Decisions. Tanner, David. SAGE Publications (CA) Government scrutiny and intensified oversight have dramatically changed the landscape of education in recent years. Observers want to know how schools compare, which district is best, which states are spending the most per student on education, whether reforms are making a difference, and why so many students

Tanner - California State University , Fresno, USA This text seems to cover the basics of educational decision making. It would make an excellent text for a course preceding the one I am teaching, Mack C. Shelley. The content is very specific to my design for the course. The book addresses a wide range of prior content.
